C Exercise 2: Units and Conversions: C Tutorial In Hindi #22

Exercise 2 :

Question : Write a program which converts the following units into another :

In this program simply use switch case statements to ask user which type of conversion he wants to do and then simply use basic mathematics and convert one unit into another.

```
/* Exercise of Units and Conversions

kms to miles
inches to foot
cms to inches
```

```
pound to kgs
inches to meters

*/
```

All the Best Guys !! Must Try it :)
